

Monday 3 August 2015
Driving reform: Digital health is everyone's business

7.30am	Registration opens					
System reform - it's everyone's business						
8.45am	Introduction and welcome Dr Michael Cleary Chair, HIC 2015 and Dr David Hansen Chair, HISA					Chair: Dr Michael Cleary Room: Great Hall 2
8.55am	Welcome to country Songwoman Maroochy Turrbal People					
9.00am	Connecting the dots in healthcare social media Thomas M. Lee Co-Founder, Symplur (USA)					
9.15am	Opening address					
9.30am	Topic TBC Speaker TBC					
10.00am	System reform is everyone's business Dr Helen Bevan Chief Transformation Officer, NHS Improving Quality (UK)					
10.30am	HISA Announcements					
10.45am	Morning tea and poster viewing HIC Innovation Expo Opens					Room: HIC Innovation Expo, Great Hall 1,3-4
11.25-12.55pm	Leading the way: Health informatics research and academia	Implementing electronic medication management systems: 101 for hospitals	Digital engagement explored	Nursing Informatics Australia	Digital Hospital Design	Hacking health
	Chair: Room: Great Hall 2	Chair: Neville Board Room: Mezzanine M1	Chair: Greg Moran Room: Mezzanine M2	Chair: Marian Linnane Room: Mezzanine M3	Chair: Dr Brendan Lovelock Room: Mezzanine M4	Room: HIC Innovation Expo, Great Hall 1,3-4
11.25am	The focus of this session is to have a discussion on the future of health informatics academic/research in Australia; what are we aiming to impact nationally and internationally and how do we best do that.	The business case for EMM Neville Board The Australian Commission on Safety and Quality in Health Care	Digital - a paradigm shift in service delivery Paul Ryder Healthsmiths (TBC)	Opening address Veronica Casey Metro South Health (TBC)	Introduction and welcome Dr Brendan Lovelock Chair, DHD 2015	The hackathon pitches All HIC delegates are welcome to attend the pitches.
11.55am		Governance for implementation Dr Monica Trujillo UnitingCare Health Planning hospital wide implementation Vicki Ibrahim UnitingCare Health	Permission and trust – beyond privacy towards trust (digital / data / challenging current models) James Horton Datanomics (TBC)	Solving the mobile learning paradox through reforming learning and teaching in healthcare environments Dr Elizabeth Cummings University of Tasmania	Delivering clinical innovation with technology in brownfield environments Dr Richard Ashby, AM Metro South Hospital and Health Service	You will watch Hackathon participants pitch their ideas to all participants. One minute is allocated per idea.
12.15pm		Getting it right first time David Walker Northern Territory Department of Health	How to use social media in health - safe and to your advantage Kirra Pendergast Safe on Social (TBC)	Safely bringing an English online tool to the Australian health system Mary Byrne Healthdirect Australia	Challenges and opportunities for driving technology innovation in the brownfield environments Mal Thatcher Queensland Health	Juliana Alvarez and Shreya Tekriwal Hacking Health (CANADA)
12.35pm		Developing and configuring your EMM systems to suit local requirements MaryAnne Molenaar Eastern Health How much is too much? Dr Melissa Baysari Macquarie University		Node-Arc-Node graphs: Acquiring nursing domain expert knowledge Philip Shields Victoria University	Q&A	
12.55pm	Lunch and innovation expo					
1.20pm	Lunchtime briefing - HISA new member orientation					Room: Mezzanine M2
1.30-2.00pm	Posters session - Digital health/advancement in technology					Room: HIC Innovation Expo, Great Hall 1,3-4
	Pilot use of a novel smartphone application to collect infectious disease data at Hajj Amani Alqahtani National Centre for Immunisation Research and Surveillance			RadSearch: A search and analysis engine for free-text radiology reports Dr Bevan Koopman CSIRO		
	Improving the quality and reliability of unsupervised measurements of vital signs in the home Prof Branko Celler CSIRO			Combining health and fitness data for a better user-centred healthcare: There is an app for that! Dr Peter Leijdekkers University of Technology Sydney		
	The impact of motivation and access to a radiology personal health record on health and wellbeing : A proposed research study Tony Gabbert Monash Health			Spatial privacy for interactive health data Dr Simon Moncrieff Curtin University		
	Data-driven diagnosis of benign and malignant samples of breast cytology Dr Soumya Ghose The Australian E-Health Research Centre, CSIRO			Moving from monitor to manager - how government payers can make the shift Dr Penny O'Hara Accenture		
	The patient revolution is NOW Anne Marie Hadley Lifehouse			Incremental implementation of an oncology EMR in a regional cancer centre Dr Graham Pitson Barwon Health		
	Automatic phone and text message reminders to increase patient completion of outpatient laboratory testing Dr David Kaelber The MetroHealth System of Cleveland (USA)			Integrated healthcare information access based on USB solid state drive A/Prof Michael Sandow iDataMap		
	Automating personal health record mammography messages to improve mammography screening rates Dr David Kaelber The MetroHealth System of Cleveland (USA)			Digital healthcare information sharing using USB datacard - case example in the armed services A/Prof Michael Sandow iDataMap		
	Paperless healthcare...truth or myth Dr David Kaelber The MetroHealth System of Cleveland (USA)			Tele-monitoring of chronically sick patients Dr Ross Sparks CSIRO		
	Enhanced ICD-10 coding of cause of death recorded on death certificates Dr Bevan Koopman CSIRO			Stem cell transplants - mobile technology can provide support in service delivery to cancer patients Dr Marlien Varnfield CSIRO		

Monday 3 August 2015
Driving reform: Digital health is everyone's business

2.05-3.25pm	Rethinking evidence synthesis	Implementing electronic medication management systems: 101 for hospitals	eDiagnostics	Nursing Informatics Australia	Digital Hospital Design	Hacking health
Chair: Room: Great Hall 2	Chair: Neville Board Room: Mezzanine M1	Chair: Room: Mezzanine M2	Chair: Bryan Macdonald Room: Mezzanine M3	Chair: Dr Brendan Lovelock Room: Mezzanine M4	Room: HIC Innovation Expo, Great Hall 1,3-4	
2.05pm	Panel A call for both industry and academia to participate in this process of evolving evidence.	Write your own project plan	An IT solution for efficient checking of x-ray reports to prevent missed fractures in emergency departments Dr Amol Wagholikar The Australian E-Health Research Centre, CSIRO	Topic TBC Speaker TBC Emerging Systems	Innovative ways to engage partners to drive ICT and care innovation in the brownfield space Colin McCrerrick Queensland Health	...let the games begin
2.25pm	Introduction Prof Enrico Coiera Centre for Health Informatics Automatic evidence syntheses Dr Guy Tsafnat Centre for Health Informatics Crowd-sourcing clinical evidence Dr Julian Elliott Monash University		HL7 middleware framework for laboratory notifications for notifiable diseases Donald Peterkin Institute of Environmental Science and Research (NEW ZEALAND)	Rapidly learning from data generated at the point of care: Improved clinical care and service delivery Graeme Bell Illawarra Shoalhaven Local Health District	Panel Aligning the enablers of change in existing hospitals Speakers TBC	
2.45pm	Connecting pharmacosurveillance to research biases Dr Adam Dunn Centre for Health Informatics	Q&A	Nationwide image exchange for the UK - caring is all about sharing! Per Bankvall Sectra	Broadening our horizons: Clinical nurses and their role in the successful adoption of information technology systems Linda De Bono Epworth HealthCare		
3.05pm	Point-of-care decision support using electronic records Dr Blanca Gallego-Luxan Centre for Health Informatics Moderated discussion Prof Enrico Coiera Centre for Health Informatics		Future directions in laboratory information management systems Martin Wilkinson InterSystems	Measuring the impact of technology on nursing work: A systematic review of the literature Dr Bernice Redley Deakin University & Monash Health		
3.25pm	Afternoon tea, innovation expo and poster viewing					Room: HIC Innovation Expo, Great Hall 1,3-4
4.05-5.45pm	Telehealth and mHealth	Change management	eMedication management and decision support	Nursing Informatics Australia	Digital Hospital Design	Hacking health
Chair: Room: Great Hall 2	Chair: Room: Mezzanine M1	Chair: Room: Mezzanine M2	Chair: Jo Foster Room: Mezzanine M3	Chair: Dr Brendan Lovelock Room: Mezzanine M4	Room: HIC Innovation Expo, Great Hall 1,3-4	
4.05pm	Results from the CSIRO national NBN telehealth trial Prof Branko Celler CSIRO	Workshop Change management Dr Helen Bevan NHS Improving Quality (UK)	Dispense works: E-health, clinical decision support and fingerprint scanning in an innovative community pharmacy dispensing system Andrew Griffin POS Works	Implications of a point of care system to nursing practice in acute care contexts: An exploratory study Prof Nilmini Wickramasinghe Epworth HealthCare	Workshop Designs for overcoming the barriers to change	Hackathon teams begin to develop their prototypes.
4.25pm	A pilot study to improve access to eye care services for patients in rural India by implementing community ophthalmology through innovative telehealth technology Dr Sheila John Medical Research Foundation, Sankara Nethralaya (INDIA)		Decision support systems and line performance: Case of Gold Coast University Hospital Dr Amir Ghapanchi Griffith University	Automating nursing's clinical knowledge Dr Evelyn Hovenga E-Health Education		The idea is to build the simplest solution that could possibly work as a springboard for feedback and further iteration – not a shippable, commercial product. The prototype may be used to help secure funding and support to finish development.
4.45pm	Organisational challenges and moving towards a national deployment model for chronic disease management in the home using telehealth Dr Rajiv Jayasena CSIRO		Reduced alert fatigue for increased clinician responsiveness and improved outcomes Prof Steven Shaha Allscripts (USA)	Nurse rounding in the digital world Glynda Summers Cairns and Hinterland Hospital and Health Service		
5.05pm	A multimodality telehealth clinical system approach to the specialist multidisciplinary (MDT) meeting Dr Ranjan Thilagarajah Royal Marsden Hospital (UK)		The hare and the tortoise: The potential versus the reality of eTP implementation A/Prof Trish Williams Edith Cowan University	Information technology – making invisible nursing work visible Cherrie Lowe TrendCare Moya Conrick award announcement Jo Foster Secretary, Nursing Informatics Australia		
5.25pm	Development and practice of store-and-forward telehealth systems in ophthalmology dental and emergency Dr Di Xiao The Australian E-Health Research Centre, CSIRO		The Tasmanian eMedication management implementation: A novel modular approach Tom Simpson Statewide Hospital Pharmacy	Thank you and closing remarks Marian Linnane Chair, Nursing Informatics Australia Nursing Informatics Australia AGM		
5.45pm	Day concludes					
5.45-7.15pm	Networking reception, innovation expo and poster viewing					Room: HIC Innovation Expo, Great Hall 1,3-4

Tuesday 4 August 2015
Driving reform: Digital health is everyone's business

7.30am	Registration opens					
7.40-8.40am	HISA AGM and breakfast Room: Mezzanine M1					
Reform driven by participatory medicine						
9.00am	Topic TBC Speaker TBC					Chair: Hacking health Room: HIC Innovation Expo, Great Hall 1,3-4
9.15am	Your e-GP is ready to see you ...					
9.30am	HISA Q&A Panel facilitated by Mark Brommeyer Adjunct Senior Lecturer, School of Medicine, Flinders University, Australia Innovation, digital disruption and the future of health – a Q&A panel with the new generation of healthcare leaders Dr Shannon Nott Founding Co-Chair, Future Health Leaders (TBC); Dr Arran Scholsberg Genetic Pathology Registrar, Royal Prince Alfred Hospital (TBC); Martin Seneviratne Medical Student, University of Sydney (TBC); Speakers TBC					Room: Great Hall 2 Hackathon teams develop their prototypes through the day. The idea is to build the simplest solution that could possibly work as a springboard for feedback and further iteration – not a shippable, commercial product. The prototype may be used to help secure funding and support to finish development.
10.30am	Morning tea, innovation expo and poster viewing Room: HIC Innovation Expo, Great Hall 1,3-4					
11.10-12.40pm	Primary care and chronic disease Chair: Room: Great Hall 2	E-safety and privacy Chair: A/Prof Trish Williams Room: Mezzanine M1	Aged care informatics Chair: Dr Ping Yu Room: Mezzanine M2	Electronic health records Chair: A/Prof Andrew Georgiou Room: Mezzanine M3	Tertiary care - data management Chair: Room: Mezzanine M4	Hacking health Room: HIC Innovation Expo, Great Hall 1,3-4
11.10am	Le Bon samaritan: A community-based care model supported by technology Dr Valerie Gay University of Technology Sydney	Featuring HISA's publications: Australian guidelines for the protection of health information: Protecting health information is everyone's business publication and E-safety avoiding e-litrogenesis: A professional practice standard for health informaticians Emma Hossack Extensia David Rowlands Direkt Consulting A/Prof Trish Williams HISA Dr John Zelcer Clinician	Topic TBC Jennifer Dunn St Vincents & Mater Health (TBC) The relationship between using electronic health records and meeting accreditation standards for client safety in residential aged care homes Tao Jiang University of Wollongong	PCEHR safety program Neville Board The Australian Commission on Safety and Quality in Health Care	Measuring data quality through a source data verification audit in a clinical research setting Lauren Houston University of Wollongong	Hackathon teams will meet with their HH mentors throughout the day and prepare for their final demo presentation. HIC delegates will be able to observe the work in progress as the teams work on the exhibit floor.
11.25am	Has e-health investment in Queensland made a difference to adoption? What our annual primary healthcare survey tells us Ann Maree Liddy CheckUP			Finding knowledge in a data tsunami: Lessons learned from a big bang e-health implementation Samantha Nothing UnitingCare Health	Perioperative information systems: Measurable improvements in patient care and financial results Vicki Hamilton and Julianne Dorloff GE Healthcare	
11.40am	Automatic detection of skin and subcutaneous tissue infections from primary care electronic medical records Prof Jim Warren University of Auckland (NEW ZEALAND)		The national aged care reform agenda and opportunities for ICT Lynda O'Grady (TBC)	A regional EHR - integration through innovation Katharina Redford South West Alliance of Rural Health	Model selection and variable aggregation of Australian hospital data Dr Sankalp Khanna The Australian E-Health Research Centre, CSIRO	
11.55pm	The Australian primary care collaboratives program: Building on 10 years of national primary care data for improvement Dr Tony Lembke The Improvement Foundation		Speaker TBC	The Personally Controlled Electronic Health Record (PCEHR) for adults with severe communication impairments: Findings of pilot research A/Prof Bronwyn Hemsley University of Newcastle	Emergency department-inpatient interface: The power of data Dr Bronwyn Griffin Princess Alexandra Hospital	
12.10pm	Considering governance for patient access to e-medical records Dr Karen Day University of Auckland (NEW ZEALAND)		Q&A Barriers and enablers Jennifer Dunn St Vincents & Mater Health (TBC); Tao Jiang University of Wollongong; Speaker TBC	Power of one: One eMR for the state, one record for the patient Louise Hayes Queensland Health	An improved patient-specific mortality risk prediction in ICU in a random forest classification framework Dr Soumya Ghose The Australian E-Health Research Centre, CSIRO	
12.25pm	Q&A					

Tuesday 4 August 2015
Driving reform: Digital health is everyone's business

12.40pm	Lunch and innovation expo Room: HIC Innovation Expo, Great Hall 1,3-4		Aged Care Informatics Australia AGM Room: Mezzanine M2			
12.55pm	CHIA Q&A Room: HISA Booth, HIC Innovation Expo, Great Hall 1,3-4					
1.15-1.45pm	Posters session - Aged care informatics, innovations/latest research and system and workforce management Room: HIC Innovation Expo, Great Hall 1,3-4					
	Web-Based automated PET and MR quantification Dr Pierrick Bourgeat CSIRO Integration of ontology based multi-agent with RFID technology: A proposal for identification of adverse events during anaesthesia Raafi Careem AUT University (NEW ZEALAND) Patient journey modelling: Translating policy into action for integrated care Dr Joanne Curry Computer Sciences Corporation Streamlining data management and analysis for discovery of biomarkers for mental illnesses Dr Noel Faux CRC For Mental Health Mobile telehealth technology assessment - Queensland case study Prof Nilmini Wickramasinghe Epworth HealthCare Introduction of an RFID tag system for surgical instrument management into a university hospital Prof Eisuke Hanada Saga University (JAPAN) NGSANE: A lightweight production informatics and presentation framework for mutation detection in high-throughput sequencing data Dr Sankalp Khanna CSIRO	An emerging role for JavaScript in the informatics pipeline: A case study in genomics Dr Arran Schlosberg Royal Prince Alfred Hospital Early benefits of EPR implementations within emergency departments: Quantified returns on investment Prof Steven Shaha Allscripts (USA) Proven benefit of computerised order entry through reduced length of stay: Proof finally Prof Steven Shaha Allscripts (USA) Conquering sepsis incidence and costs through locally-adaptable EPR/EMR with advanced CDS Prof Steven Shaha Allscripts (USA) Forecasting capacity risk at hospitals Dr Ross Sparks CSIRO Digital reform through implementing funding reform - the experience of one hospital in NSW Gowri Sriraman South Eastern Sydney Local Health District Social engineering in SSO is a 'workforce' winner Murray Verbeek Imprivata Office innovation helps employees "find 30 in 9 to 5" to counteract sedentary health risks Darren Webb Edith Cowan University				
1.50-3.20pm	Primary care and chronic disease	Workshop	Education and workforce management	The consumer	Tertiary care	Hacking health
	Chair: Room: Great Hall 2	Chair: Room: Mezzanine M1	Chair: Mark Brommeyer Room: Mezzanine M2	Chair: Room: Mezzanine M3	Chair: Room: Mezzanine M4	Room: HIC Innovation Expo, Great Hall 1,3-4
1.50pm	Incidence rate of prediabetes: An analysis of New Zealand primary care data Prof Jim Warren University of Auckland (NEW ZEALAND)	You can sponsor me! Contact HISA for how your organisation can design content, deliver valuable information to delegates and sponsor.	From folklore to fact - separating fact from fiction to build an organisation wide knowledge repository James Holman Department of Health and Human Services	Leading the way into the future of the patient empowerment revolution in the digital world Glynda Summers Cairns and Hinterland Hospital and Health Service	Designing technology for assessments of CALD patients Dr Dana Bradford CSIRO	Hackathon teams will meet with their HH mentors throughout the day and prepare for their final demo presentation. HIC delegates will be able to observe the work in progress as the teams work on the exhibit floor.
2.05pm	Chat-Bots for people with Parkinson's disease: Science fiction or reality? Dr David Ireland CSIRO		Health informatics and e-health curriculum for clinical health profession degrees Dr Kathleen Gray University of Melbourne	The HealthierU portal for supporting behaviour change and diet programs Dr Shlomo Berkovsky CSIRO	Mapping your journey to paperless care Renee Close OnBase By Hyland (USA)	
2.20pm	An investigation into the role for a pervasive technology solution to support gestational diabetes self-care Prof Nilmini Wickramasinghe Epworth HealthCare		E-mentoring and e-supervision - successfully managing virtual and remote teams Gabriele Taylor Feros Care	Consumers are pushing for integrated information and technology for their healthcare Dr Penny O'Hara Accenture	UK case studies translating patient and staff experience into health system improvement Dr Avnesh Ratnanesan Energisse	
2.35pm	Use of smartphones to estimate carbohydrates in foods for diabetes management Dr Hang Ding CSIRO		Educating the health informatics professional: The impact of an academic program Dr Sue Whetton University of Tasmania	StepKinnection: A fall prevention game mindfully designed for the elderly Jaime Garcia University of Technology Sydney	The future of the electronic discharge summary - a story of application evolution? Dr David Evans Queensland Health	
2.50pm	A registry framework enabling patient-centred care Prof Matthew Bellgard Murdoch University		Evaluating predictive analytics for capacity planning Catherine Lancaster McKesson (USA)	Improving video based heart rate monitoring Dr Andreas Duenser CSIRO	Spade or shovel?...Our approach to reducing the complexity and variation in the chemotherapy journey Helen Delimitros Epworth Healthcare	
3.05pm	Q&A		Q&A	Q&A	Q&A	
3.20pm	Afternoon tea, innovation expo and poster viewing Room: HIC Innovation Expo, Great Hall 1,3-4					
4.00pm	HISA Q&A Panel facilitated by Tony Jones Host of Q&A, ABC TV Room: Great Hall 2		Digital health is everyone's business: How do we get there faster? Dr Michael Cleary Chair, HIC 2015; Dr David Hansen Chair, HISA; Speakers TBC Room: HIC Innovation Expo, Great Hall 1,3-4			
5.30pm	Day concludes					
6.30-10.30pm	Gala awards dinner Main Auditorium, Brisbane City Hall					

Wednesday 5 August 2015
Driving reform: Digital health is everyone's business

7.30am	Registration opens				
Data transforming the system					
9.00am	The transformative role of health informatics bringing together government, academia, clinicians and technologists Dr Doug Fridsma President and Chief Executive Officer, American Medical Informatics Association (USA)				Chair: Room: Great Hall 2
9.40am	Brazil's national e-health record – a story of use case driven development Prof Ricardo Puttini Coordinator of National EHR Project, University of Brasilia and Ministry of Health (BRAZIL)				
10.15am	Morning tea, innovation expo and poster viewing				Room: HIC Innovation Expo, Great Hall 1,3-4
Hacking health demos: Innovation in our backyard					
10.45am	Hackathon teams will demonstrate their proposed solutions in a 2 minute presentation on the HIC Plenary stage. Innovation at its finest! Juliana Alvarez and Shreya Tekriwal Hacking Health (CANADA)				Room: Great Hall 2
11.45am	Break				
12.00-1.30pm	Telehealth and mHealth	The health informatics job market	Indigenous, community and regional	Big data	Integrating care
	Chair: Room: Great Hall 2	Chair: Dr Louise Schaper Room: Mezzanine M1	Chair: Room: Mezzanine M2	Chair: Room: Mezzanine M3	Chair: Room: Mezzanine M4
12.00pm	A study on the quality of life and psychological outcomes in elderly patients in home telemonitoring Dr Marlien Varnfield CSIRO	Workshop Whether you are 'brand new' to the field, considering a career change; wanting to land your next promotion or that new job – this workshop is for you. Find out the career opportunities that exist in this growing industry and how to advance your career.	Tacking the social and economic challenges of health and care services: A regional innovation approach Greg Moran Tourin	Automated classification of clinical incident types Jaiprakash Gupta National Health Performance Authority	A healthcare logistics approach to achieving consumer centred care: Survey of early adopters in European hospitals Delia Dent CSC
12.15pm	Voice enabled and smart: The potential of wearables in healthcare Dr Nick Van Terheyden Nuance (USA)	David Rowlands Direkt Consulting Dr Louise Schaper HISA	National telehealth connection service in practice Dr David Doolan Telstra Health	Big text analytics - the four intelligences Prof Jon Patrick Health Language Analytics-iCIMS	Impact of physician community structure on healthcare outcomes Dr Shahadat Uddin University of Sydney
12.30pm	Human activity recognition from smartphone sensor data using a multi-class ensemble learning in home monitoring Dr Soumya Ghose The Australian E-Health Research Centre, CSIRO		Queensland Remote Chemotherapy Supervision Guide (QReCS) - Chemotherapy closer to home Leisa Brown Queensland Health	A geovisual Epiphaneae for the health industry Dr Simon Moncrieff Curtin University and Robert Rowell Insight GIS	Successful introduction of full device integration into clinical care Patricia Liebke UnitingCare Health
12.45pm	Digital health: Paperless mobile clinical information system Alan Yung HTR Telhealth		Geospatial Information Systems (GIS) in Aboriginal healthcare in Queensland Amy Dellit Queensland Aboriginal and Islander Health Council	Electronic health records - the source of little data for big data Dr Evelyn Hovenga E-Health Education	Using agile IT to improve oncology multi-disciplinary meeting (MDM) coordination Ali Besiso Innovative Clinical Information Management Systems
1.00pm	A secure data architecture for telehealth trial Dr Surya Nepal CSIRO		Deadly ears - delivering better hearing outcomes for Aboriginal and Torres Strait Islander children Gavin Bott Queensland Health	How the EMR's 'big data' can assist clinicians to improve patient outcomes Dr Jean Evans Kolling Institute	Transformational change - implementing a fully integrated eMR Patricia Liebke UnitingCare Health
1.15pm	Q&A				
1.30pm	Lunch and innovation expo				Room: HIC Innovation Expo, Great Hall 1,3-4
2.05-2.35pm	Posters session - Integrated care, value of data and participatory medicine				Room: HIC Innovation Expo, Great Hall 1,3-4
	Tailored and personalised mobile health interventions for patients with chronic disease: Implication of health communication and patient centred approach Nazli Bashi CSIRO		Code status reconciliation to improve identification and documentation of code status in electronic health records Dr David Kaelber The MetroHealth System of Cleveland (USA)		
	Mobile app for patients at the centre of their care coordination plan and record Russell Bowden Precedence Health Care		Managing regular surge events at a hospital service Dr Sankalp Khanna The Australian E-Health Research Centre, CSIRO		
	Face-to-face to tele-education - a successful paradigm shift Leisa Brown Queensland Health		Challenges in achieving cross-domain exploration of clinical study data Dr Hugo Leroux The Australian E-Health Research Centre, CSIRO		
	Telehealth in Australia and internationally: Innovative, BAU or 'old hat' Bernard Crowe Bernard Crowe & Associates		Food is medicine: Utilising technology to enable collaborative decision-making of meal prescriptions for improving patient outcomes Kirsty Maunder University of Wollongong		
	Continuously improving cloud-based tools to drive decision making and enable remote access of medical experts for Cerebral Palsy Dr Nicholas Dowson CSIRO		The importance of effectively normalising patient-reported medication intake Dr Alejandro Metke The Australian E-Health Research Centre, CSIRO		
	Telehealth - The need and requirements for a shared electronic health record Dr David Evans Queensland Health		EPR/EMR impacts on bedside caregivers: Verifying favourable clinical, cost, satisfaction outcomes Prof Steven Shaha Allscripts (USA)		
	Interoperability - the emerging e-health priority Dr David Evans Queensland Health		Community system-integration: Outcomes-maximising approach with illustrative case study Prof Steven Shaha Allscripts (USA)		
	Towards an Australian wound registry - pilot project Dr Dominique Gorse QFAB Bioinformatics		Integrated care case study: Streamlining healthcare systems with electronic health standards compliant clinical information systems Alan Yung HTR Telhealth		

Wednesday 5 August 2015**Driving reform: Digital health is everyone's business**

2.40pm	Topic TBC Speaker TBC	Chair: Dr Michael Cleary Room: Great Hall 2
3.20pm	#hic15 wrap up Thomas M. Lee Co-Founder, Symplur (USA)	
3.25pm	Branko Cesnik awards A/Prof Andrew Georgiou and A/Prof Heather Grain Co-chairs, HIC 2015 Academic/Scientific Program	
3.30pm	Thank you and summary Dr Michael Cleary Chair, HIC 2015	
3.45pm	Introduction to HIC 2016 and farewell Dr Louise Schaper CEO, HISA and Dr David Hansen Chair, HISA	
4.00pm	Conference concludes
